PROFESSIONAL SUMMARY

Seasoned tech lead with a decade of experience in cloud development and AI technologies, specializing in media and editorial applications. Proven track record in collaborating with product and technological teams to develop AI-driven solutions that enhance editorial workflows and consumer-facing products. Skilled in multi-agent orchestration, data analysis, and machine learning applications, with a strong understanding of AI's implications in media. Adept at communicating complex AI concepts to non-technical stakeholders and advocating for responsible AI usage. Holds extensive experience in senior-level editorial roles within media organizations, bridging journalistic principles with AI innovation.

EXPERIENCE

Global Cloud Inc.	Seattle, WA
Senior Software Development Engineer - Elastic Infra Platform	2021.06–Present
<ul style="list-style-type: none">Architected batch compute systems that improved global editorial content delivery reliability, achieving 99.99% update coverage.Pioneered enhancements in AI models for infrastructure rollout, aligning technological advancements with editorial needs.Spearheaded data warehouse initiatives, providing leadership with actionable insights for strategic decision-making.	
Global Cloud Inc.	Seattle, WA
Software Development Engineer II - Core Infra Platform	2019.05–2021.05
<ul style="list-style-type: none">Identified key metrics for rollout analysis, significantly reducing operational costs and enhancing media content delivery.Enhanced legacy algorithms, improving rollout efficiency by 30%, directly impacting consumer product development timelines.Innovated alert systems that improved system reliability, ensuring high availability for media content platforms.	
TechCorp LLC	San Francisco, CA
Software Engineer	2016.11–2019.03
<ul style="list-style-type: none">Led migration of ML infrastructure to cloud, ensuring high availability for media recommendation services.Designed integration solutions that streamlined data flow, enhancing editorial product development efficiency.Implemented cost-saving measures in cloud services, directly benefiting media operations and reducing overhead.	
HealthData Systems	Chicago, IL
Software Engineer	2015.09–2016.11
<ul style="list-style-type: none">Designed high-durability data placement services, ensuring reliable data storage for media analytics.Built systems to optimize data management, reclaiming resources and improving system performance for editorial use.	

EDUCATION

Notecnirp University

City, State

M.S. in Computer Science

2015.06

Focused on AI technologies and their applications in media, completing a thesis on machine learning solutions for editorial content optimization.

Completed coursework in Data Science, Machine Learning, and Advanced Algorithms, with projects emphasizing AI-driven consumer product development.

Collaborated with cross-functional teams on a capstone project that integrated AI tools to enhance media workflows, showcasing leadership and strategic planning.

Jiangning University

City, State

B.S. in Computer Science

2012.06

Graduated with honors, focusing on data analysis and AI methodologies relevant to media applications.

Engaged in projects that explored the intersection of technology and journalism, including a notable project on AI ethics in media.

Active member of the university's tech club, leading initiatives that promoted responsible AI usage and innovation in editorial contexts.

SKILLS

Technical Skills: AI technologies, Data analysis, Machine learning applications, Consumer product development, Large Scale Distributed Systems, LLM Orchestration, Python, SQL

Soft Skills: Leadership, Strategic mindset, Cross-functional collaboration, Communication of complex concepts, Advocacy for AI ethics

Other Skills: Collaboration with product and technological teams, Editorial operations
